Help Wanted - Spring, Summer & Fall on the farm.

Spring Ledge Farm is looking for friendly, smart employees in three areas of the farm: Farmstand Sales, Greenhouses and Field Crew.

The **Farmstand** Sales includes customer assistance, setting up displays, watering, re-stocking plants and produce and requires a friendly, service-oriented disposition. Some weekend hours are required as these are our busiest sales days.
(Spring, Summer, Fall)

The **Greenhouse** job includes transplanting, watering & moving plants to the farmstand for sale. Spring Ledge operates 10 greenhouses and cold frames supplying the farmstand with fresh material Spring, Summer and Fall. Applicants need the stamina to be on their feet throughout the day and a love of plants. We practice I.P.M. and release millions of beneficials each season. High quality crops are the stated goal. As the focus of the business moves to the farmstand in the summer, greenhouse jobs may evolve into farmstand help. (March/April - June)

The **Field** Crew works on approx. 5 acres of vegetables and flowers, 4 acres of strawberries and 18 acres of sweet corn. The job includes all aspects of growing such as planting, cultivating, irrigating, harvesting, washing and displaying. This full time, outside, rain-or-shine job is physically demanding, with lots of fun amongst a good group of people. We practice I.P.M. in our field growing and we're looking for a crew that upholds our high quality of production.
(May - Labor Day)

This is a great opportunity to learn with hands-on experience about the real life workings of a busy farmstand, a growing ornamental greenhouse business, and a diverse and varied produce farm. We are located in the beautiful Kearsarge / Lake Sunapee region of N.H.

To Apply:

Print out an application form from our website (www.springledgefarm.com). Send us the completed application. Please call with any questions. We look forward to hearing from you.
