

Arugula *Eruca vesicaria subsp. sativa*

Arugula

Unmistakable salad spiker. easy to grow, adds a distinctive flavoring to salads.

Bean - Lima *Phaseolus lunatus*

Fordhook 242

Classic, big, plump limas.
Early bearing and delicious, this is the best large-seeded variety. Widely adapted.
White seeds

Bean - Pole *Phaseolus*

Red Noodle

16-20" long beans are borne in clusters of up to four beans each. Healthy, vigorous plants. Sweet flavor. Burgundy color will fade when cooked.

Scarlet Runner Bean

A hummingbird favorite. Scarlet red flowers all along the vine. Beans are edible and especially good when young. Keep the bean pods picked for continuous blooms.

Beet *Beta vulgaris*

Chioggia

Candy striped! The smooth, medium-height tops are all green with pink-striped stems. Excellent flavor.

Red Ace

The best all-around red beet. Rapid growth, sweet flavor, and tenderness are the characteristics of Red Ace. The round, smooth, deep red roots size early, with high uniformity. They maintain their sweet tenderness when larger and older. Medium tall, red-veined greens for bunching.

Broccoli *Brassica oleracea*

Green Comet

The standard variety used for years. Good sized heads with good side-shoot production. Delicious.

Green Magic

This broccoli forms smooth, dense heads and has improved heat tolerance.

Brussels' Sprouts *Brassica oleracea*

Hestia

Early, firm sprouts hold well in the field. Hestia's flavorful, medium-small sprouts mature quickly but still hold well in the field - an unusual combination for a Brussels sprout. Plants are short and resistant to lodging. For early and mid fall harvest. AAS Regional Winner.

Bush Bean - Green *Phaseolus vulgaris*

Savannah

Dark green, straight and smooth. Heavy yields. A favorite in the fields at Spring Ledge Farm. Delicious and crisp.

Cauliflower *Brassica oleracea*

Snow Crown

The standard early cauliflower.

Celeriac *Apium graveolens*

Brilliant

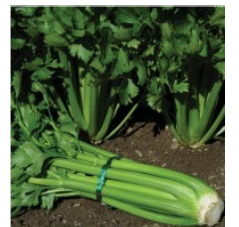

Celeriac is a type of celery grown for its baseball sized, nutty-flavored roots. This European strain is an excellent early-maturing variety. Selected from our trials for its uniform, nearly fiberless white, 3-5 inch diameter roots and good productivity. Stores well. Peel, cut into bite-sized pieces, and saute. Delicious!

Celery *Apium graveolens*

Tango

Tango is similar to Conquistador, but the flavor is better and the stalks are more tender and less fibrous. The plant is also a few inches taller. Tango performs well under less-than-ideal growing conditions such as heat or moisture stress.

Corn *Zea mays*

Providence

Our Favorite! Sweet bi-color.

Cucumber *Cucumis sativa*

Bush Champion

Bush types take one-third the space, so they're great for containers and raised beds. Bush Champion's huge 8 to 12" cukes make this our favorite mini. You won't believe the large number of crisp, bright green slicers you'll get from the pint-sized plants. Mosaic resistant and productive.

Diva

AAS Winner - 2002. Bred by Johnny's Selected Seeds in Albion ME for Northern gardens. Great tasting cucumber with a smooth, thin, no peel skin. Tender, bitterfree and seedless flesh.

Homemade Pickles

Pickling Cuke! Grow your own to make pickles. The vigorous 5 foot vines exhibit excellent disease resistance, and yield armloads of solid, crisp cucumbers. Pickle-shaped fruit are medium green with small white spines.

Marketmore

Popular non-hybrid. The market standard for slicing cucumbers. Grown by most fresh market growers in NH.

Eggplant *Solanum melongena*

Applegreen

Developed by UNH breeder Elwyn Meader in the 1964, this apple-green eggplant is flav orful, non-bitter and tender. Round fruit are 6"x4 1/2" and early and productive.

Calliope

Calliope is a beautiful, oval, white and purple-streaked Indian-style eggplant. Suitable for baby (2") or mature (3-4") harvest. High yielding, even in the North. The plants and calyxes are spineless, unlike many varieties of this type.

Gretel

AAS Winner! These glossy ivory fruits are ready for picking when just 3 to 4 inches long, making splendid "baby veggies". However, unlike others, Gretel won't grow tough and dry as it gets longer. If you don't want to harvest the entire crop young, take the 55-day maturity date as a starting point, and continue to harvest when and as you like for several more weeks! The fruit will be larger but no less succulent and bitter-free.

Hansel

New! Solid purple mini eggplant.
2008 AAS winner! Start harvesting the abundant fruits when they are only 3-4" long. The compact, 25-36", plants produce the tender, dark purple fruit in clusters for easy harvesting. Hansel is non-bitter and perfect for grilling or slicing thin onto pizza.

Nadia

Uniform, 7-8" long by 3-4" diameter, dark purple fruits are glossy and blemish free. Tall, sturdy plants can set fruit under cool conditions. Green calyx.

Pingtung Long

HEIRLOOM A prolific, early producing Asian eggplant with glossy purple skin and bright green calyx. Slender fruits average 12-18" long and 1-2" wide. This variety can yield up to 20 fruits per plant and are vigorous and stress tolerant. Stake plants to maintain straight fruits. Very tender skin does not need to be peeled. Good tolerance to disease. Awesome on the grill!

Green Cabbage *Brassica*

Fast Vantage

Green Cabbage

Green Kohlrabi *Brassica oleracea (gongylodes gr*

Rapidstar

Very uniform in maturity with exceptional earliness and good flavor. Excellent yields.

Green Leaf *Lactuca*

Grazion

Kale *Brassica oleracea*

Lanceolata

Toscana kale with long, narrow leaves for attractive and tall, straight bunches. Dark blue-green leaves with beautiful savoy. Lacinato or "dinosaur" type kale.

Red Russian

Tender, colorful. Stems are purple, leaves deep grey-green, purple-veined, flat, non-curved and tooth-edged. The plants mature medium-tall and the leaves are very tender compared to other kale varieties. For mixed salads and light cooking.

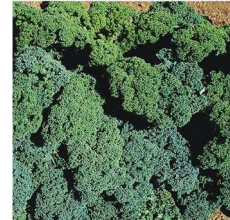

Redbor

A completely magenta kale. Finely curled kale is a striking addition to salads and something new for the ornamental garden as well. Vigorous and cold resistant.

Winterbor Kale

Well-curved, blue-green leaves. Fancy quality, extra-productive kale. Tall, growing 2-3' with great yield and cold hardiness. Regrows vigorously for successive harvests.

Leek *Allium schoenoprasum*

American Flag

A perfect variety for the home gardener. American Flag has thick blue-green leaves with large white stems. This variety is good for fall and winter harvesting and will grow quickly from seed. Delicious in soups, stir fries and stews.

Lettuce *Lactuca sativa*

Bibb

We use 'Ermosa' from Johnny's Selected Seeds in Albion, Me. Dark green summer boston. Tolerates summer conditions. Excellent butterhead lettuce quality.

Black Seeded Simpson

Heirloom lettuce - The earliest and most popular looseleaf variety for home gardeners. Large loose crumpled juicy light green leaves slightly ruffled. Inner leaves tender and well blanched. Does not stand heat well. Plant early. Introduced in the 1870's and still popular today.

Green Salad Bowl

Large fast growing rosette lettuce with long, light green, deep cut leaves.

Lettuce Mix

Mixed Lettuce - could be green, could be red! Either way it is delicious and nutritious.

Panisse

Compact full-size heads with disease resistance. The large, lime-green, lobed oak leaves have excellent flavor. Best for early or late plantings, but suitable for summer in the north. Resistant to downy mildew races 1-17, 21, and 23; and intermediate resistance to lettuce mosaic virus.

Red Sails

AAS Winner. The slowest bolting red leaf lettuce. Popular for salad mixes as well. Attractive, compact, fringed heads of deep burgundy red over green. Taste remains mild for a long time.

Red Salad Bowl

A wine red version of Salad Bowl - Oakleaf lettuce. Deeply lobed, delicate oak-like leaves form a full rosette. Slow to bolt and holds its mild, non-bitter salad quality for a long time. SLF has used this variety in the field with good success.

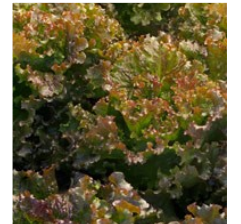

Romaine

We use 'Romulus', from Johnny's Selected Seeds in Albion, Me. Remarkably sweet and delicious. Broad, heavy dark green romain. 11-12 inch head. Slow bolting.

Ruby Sky

Red Leaf. Dense heads. Ruffled leaves are intense red at the tips and green at the inner base. Uniform growth. Resistant to DM races 1-17, 21, and 23; LMV; and *Nasanovia ribisnigri* aphid.

Speckled Amish

Open-pollinated. An ornamental bibb of spectacular beauty, its apple-green leaves splashed with maroon flecks. A stunner in your garden or salad. Makes small firm mild-flavored heads

Muskmelon *Cucumis melo*

Ambrosia

Extra-sweet. Heavily netted with no ribs. Muskmelon type weigh 4 lb. (1.8 kg). 86 days to maturity.

Onion *Allium ampeloprasum*

Red Carpet

Tight bulbs that store extremely well, with the excellent color on the interior layers.

Yellow Sweet Spanish

One of the most popular for gardeners, this jumbo-sized onion is mild with golden brown skin.

Pea (garden veg.) *Pisum sativum*

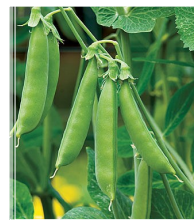

Green Arrow

A standard shelling pea with good sweet pea taste. Likes cool weather. Medium-size vines grow 24-28" tall. Slim pointed pods are 4-5" long and contain 8-11 small deep-green peas. Pods are almost always borne in doubles. Extremely heavy production.

Sugar Snap

The original snap pea-an All-America Selections winner. 6 foot vines. Delicious, fleshy 3" round pods are great to eat whole when fully grown.

Pepper - Hot *Capsicum frutescens*

Anaheim Hot

Also known as California Chile and Chile Verde. It was cultivated for canning in a factory near Anaheim around 1900. Anaheim is the pepper typically used for chiles rellenos. 7" long fruits tapering to a point turn from dark-green to red at maturity. Pungent, but not particularly hot. 900 to 2,500 Scovilles.

Baron- Ancho

Highly-adaptable, large-fruited Ancho pepper. Baron has proven to produce better than other anchos under challenging and favorable conditions. The fruits are very large, avg. 5" x 3", and are typically two-lobed which makes them easy to stuff and cook in their signature dish, chile rellenos.

Beaver Dam Hot

Hungarian heirloom, ripens lime-green to red. Moderate heat, good for salsas and stuffing. 2"x3", 80 days

Bhut Jolokia (Ghost Pepper)

This is the super hot pepper that started it all. All the way from Assam, India it is the first hot pepper to break the 1 million scoville mark.

Biquinho Yellow

"Little Beak" pepper from Brazil. The small, pointed fruits avg. 1 1/4" and have a unique, slightly tart flavor with a tiny bit of heat. May be eaten raw or cooked, but is generally pickled in vinegar and served with meals. Fruits turn from very pale green to yellow.

Fish Hot

Pre-1870s African-American heirloom. Beautiful green and white variegated foliage on 18-24" plants. Pendant fruits 2-3" long, ripen from cream with green stripes to orange with brown stripes to all red. Traditionally used in oyster and crab houses around the Chesapeake Bay. Perfect for salsa. 80 days from transplant.

Habanero

The HOTTEST commonly grown pepper. Some say the hottest in the world. Extremely pungent fruit can be used fresh or dried. Called Scotch Bonnet in Jamaica.

Hungarian Hot Wax

Dependably productive. 58 days to pale yellow, 83 days to red ripe. carrot shaped fruit. Easy to stuff and to peel after roasting. Sunset colors make it a pretty pepper for pickling. Definitely, but not overly, hot.

Jalapeno

Indispensable to Mexican cooking. often roasted or chopped. Dark green changing to red. Widely adapted.

Red Ember

Cayenne Type.

Serrano del Sol

Mexico's first hybrid serrano pepper solves the late maturity and small size problems of open pollinated varieties! Serrano del Sol matures a full 12 to 20 days earlier, and its nearly 3" long fruits are almost double the size of traditional serrano types. Not excessively hot, with a unique flavor some people prefer to jalapenos. Dark green, maturing red.

Thai Hot

Thai Hot checks in around 80,000 Scoville units. Thai Hot's small conical peppers ripen to bright red and stand erect above the foliage. Early pinching will produce a bushy 8" plant that can be pulled, roots and all, and hung to dry for winter use or grown inside for both ornamental and edible enjoyment

Pepper - Ornamental *Capsicum frutescens*

Hot Pops Purple

Colorful, little, round fruits are so attractive in their own right that they are grown just for show. Fruit is edible, but not palatable. Shows multiple colours on the same plant.

Medusa

Child-safe, non-pungent fruit is colourful and twisted. Naturally dwarf, well-branched plants. Produces 2 to 2.5-in. fruit that starts ivory and turns yellow, then orange and finally bright red.

Onyx Red

2018 AAS Flower Winner - Onyx Red is one of those stunning double-take plants that steal the show! This breeding work has resulted in an unprecedented compact, well-branched ornamental pepper adorned with eye-catching dark black foliage. The contrast between the diminutive black foliage and tons of shiny red fruits is striking and makes a bold statement in the garden. Plants are vigorous, continually growing but retain their neat, compact habit, making Onyx Red a wonderful plant for beds, borders, containers and dramatic mass plantings.

Purple Flash

Purple Flash Ornamental Pepper has striking flashes of bright purple foliage among the dark leaves that contrast well with small, glossy black fruit. These heat-tolerant plants are great for mixed containers and in-ground plantings. Fruit is very hot!

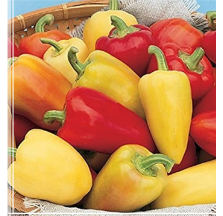

Pepper - Sweet *Capsicum annuum*

Antohi Romanian

Tasty East European frying pepper. Smooth, 4" long, by 2" wide, tapered, pointed fruits ripen from pale yellow to red. Upright plants have good branch strength and yield early and heavily. TIP: It's most delicious cooked

Jan Antohi was a touring acrobat when he defected to the United States. In late 1991, he visited his family in Romania for the first time in over 8 years, and came back with seeds of this delicious heirloom pepper.

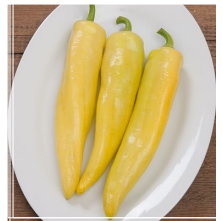

Carmen

Red Italian type. Early, productive, and delicious. A beautiful new pepper of the Italian "bull's horn" (corno di toro) type from Johnny's owners and plant breeders Janika Eckert and Rob Johnston. Carmen has a lovely sweet taste for salads and roasting, especially when partially or fully red-ripe. To be selected as a 2006 All-America Selections winner, Carmen was judged superior by official AAS judges across the U.S. and Canada.

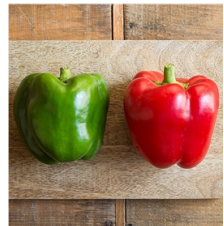

Goddess

Banana Pepper type

King Arthur

For early production of large green or red bell pepper. Plants are large and early to bear big crops of large, thick walled fruits. Widely adapted. High resistance to bacterial leaf spot races 1, 2 and potato virus Y.

Mellow Star

Avg. 3 1/2-4" heavily wrinkled fruits are thin walled, mild (no heat) when green and slightly sweet when red. In Asia, fruits are always cooked green but they also may be used red. Thinly sliced, the red fruits are excellent in salads and coleslaw. Large, upright plants produce good yields over an extended harvest period.

North Star

66 days. An outstanding producer of 5-6 medium to large sized bell peppers. In our trials, Northstar is the first of the early standard bells to turn from green to mature red. The beautiful, 4 inch, blocky, 3-4 lobed fruit is smooth and thick fleshed. Gardeners and market growers alike will appreciate the strong branch habit and leaf coverage for scald protection. Resistant to tobacco mosaic virus.

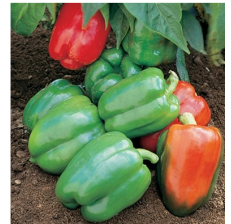

Round of Hungary

Specialty Pimiento Cheese Pepper. Early ripening, ribby, flattened fruits have super thick flesh and are sweetly delicious. Distinctive fruits turn intensely red early (75 days) and work well stuffed, in salads or just eating raw.

Yankee Bell

Developed by Johnny's Seeds in Albion Me for northern growers. Blocky, 3-4 lobed medium-sized fruit. Strongly branched. A Spring Ledge Favorite!

Pumpkin *Cucurbita pepo*

Baby Bear

AAS Winner. Developed by Johnny's Selected Seeds in Albion, ME. Has been called the perfect pie pumpkin. 1-3 lb fruits are about half the size of a normal pie pumpkin. Slender, sturdy handles.

Howden

The preferred large pumpkin. Developed by John Howden of Mass. in the early 1970's. "The Look" in halloween pumpkins. Good handle. 115 days. 20+ lbs. average.

Orange Smoothie

AAS Winner for 2002. Clear orange without deep cut ribs. 5-8 lb. fruits. Use for carving, pies and painting.

Rouge Vif d'Etamps

Also known as Cinderella. French heirloom. Deeply-ridged, burnt orange to red fruits from 7lbs and up. Pumpkins are flat, variable in size. Great decorative Jack lanterns. Introduced by Burpee in 1883.

Purple Kohlrabi *Brassica oleracea (gongylodes gr*

Kolibri

Crisp, apple-like white flesh. Good for salads, snacking, light cooking. Refines, flavor-selected variety. The best purple variety. Large bulbs with uniformly deep purple skin, nearly fiberless white flesh.

Red Cabbage *Brassica*

Ruby Ball

Red Cabbage

Soybean *Glycine max*

Envy

Envy is well established as the short-season favorite soybean. The upright, 2' tall plants bear an early crop of bright green beans for "edamame", fresh shelling, or drying.

Spinach *Spinacia*

Space

Medium dark green leaves are upright and smooth to slightly savoyed.

Squash - summer *Cucurbita pepo*

Eight Ball

All American Selections winner - Unique round fruited zucchini produced on open, bush plants.

Multipik

The standard for Spring Ledge grown yellow summer squash. Tender flesh, strong growth. Great for the home garden.

Sunburst

Patty Pan type. Bright, deep yellow skin and good eating quality. Sunburst is a good yielder of tender, rounded squash with a scallop. Appetizing color whether picked tiny, with the blossom still attached, or teacup-size. Vigorous plant. 1985 All-America Selections winner.

Zucchini Elite

The market standard.

Squash - winter *Cucurbita pepo*

Acorn

We use 'Ace', the #1 commercial variety. The easiest of all squash prepare. Semi-bush, quite compact.

Blue Hubbard

The big fruits are tapered at the ends and have a bumpy, blue-green, hard shell. Averages in the 12-15 lb. range with some larger. Medium-dry, medium-sweet, yellow flesh. A fall tradition at New England roadside stands.

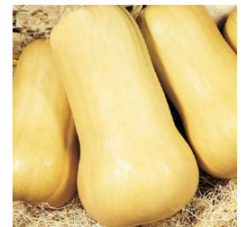

Buttercup

The Northern New England favorite. Dark green, blocky with a grey button on the blossom end. 3-5 pounds. Orange fiberless flesh.

Butternut

This fine Butternut type is the most popular winter squash. Fruit are 8-10 in. long with thick, cylindrical necks. Its flesh color is richer than others, and the fruit store well, late into winter.

Delicata

Unique 7-9" long and 3-4" wide 2 lb. fruit. Cream colored with dark green stripes. Very sweet orange flesh.

Sunshine

AAS Winner - 2004! Bred by Johnny's Selected Seeds in Albion ME. Stunning, scarlet fruit. Beautifully tender flesh is smooth, sweet and bright orange. Use for baking, mashing and pies. Highly rated in trials across the U.S. and Canada. Short vined plant can be used in the home garden.

Sweet Pepper *Capsicum annuum*

Lunchbox Mix

These beautiful, mini-sized peppers are remarkably sweet and flavorful. They are delicious sautéed, as an addition to salads and, of course, perfect for a healthy snack. All three varieties have tall, strong plants that yield well for snack-type peppers.

Swiss Chard *Beta vulgaris*

Bright Lights

AAS Winner. Multicolor chard. Stems of many colors including gold, pink, orange, purple, red and white. Lightly savoyed leaves with a mild taste.

Peppermint Swiss Chard

Swiss Chard with pink and white veined stems

Tomato *Lycopersicon esculentum*

Sunrise Bumble Bee

Yellow, round cherry tomato with red stripes and pink interior marbling. Gorgeous combination of yellows and reds, inside and out. Excellent sweet and tangy flavor. 20-25 gm. fruits. Indeterminate.

Tomato - Cherry *Lycopersicon esculentum*

Black Cherry

A perfectly round cherry with classic black tomato flavor, sweet yet rich and complex. Fruit picks clean from the stem and is produced in abundance on vigorous, tall plants. These cherries are irresistibly delicious and a unique addition to the color spectrum of cherry tomatoes now available. Indeterminate. 65 days.

Principe Borghese

The Italian heirloom that is famous for sun drying. Small 1-2 oz. grape-shaped fruit are very dry and have few seeds. They have a rich tomato taste that is wonderful for sauces. Determinate vines yield clusters of fruit in abundance

Rapunzel

Just like its fairy tale namesake, Rapunzel puts out long, cascading trusses, each with up to 40 sweet, bright red cherry tomatoes that keep coming all summer long. The long stems are quite impressive when picked fully loaded with tomatoes, which can be enjoyed individually as they ripen. Indeterminate. 70 days.

Red Pear

Red medium-flavored fruit shaped like a pear. Pleasing to the eye when alone or mixed with other cherry tomato colors and varieties.

Riesentraube

Heirloom - A unique German heirloom that bears large bunches of intensely flavorful, one ounce red fruits, slightly elongated with a bump at the blossom end. Resistant to cracking, with good foliage cover. The name translates as "giant bunch of grapes".

Sun Gold

This golden-yellow variety comes highly recommended by all our tomato aficionados here at Spring Ledge. Tangy and sweet all at the same time. We eat these off the vine by the handful! Try one at home - or better yet, try two - one for snacking and one for salads.

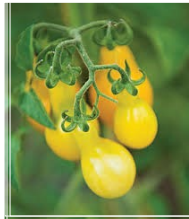

Sweet Million

Dark red fruit, disease resistant and a standard cherry for Spring Ledge field production. An improvement over 'Sweet 100' in quantity and quality of fruits.

Yellow Pear

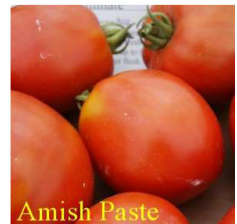

Distinctive salad tomato. vigorous plant with pear-shaped fruits. Goes well with 'red cherry', 'sweet million' and 'Sun Gold'.

Tomato - Heirloom *Lycopersicon esculentum*

Amish Paste

Great sauce type tomato is meaty with few seeds and great for canning, eating fresh and sauce. Prolific producer of oxheart fruits up to 8 oz. Thick, bright red sweet flesh.

Brandywine

76 days - An Amish Heirloom - Produces a 10-12 ounce fruit with pink skin and red flesh. Gourmet flavor. Thought to be the best tasting tomato anywhere.

Cherokee Purple

Unusual variety with full flavor. Medium-large, flattened globe fruits. Color is dusky pink with dark shoulders. Multilocular interior, ranges from purple to brown to green. Relatively short vines. Indeterminate. Needs staking.

Costoluto Genovese

Italian heirloom tomatoes. Large, deep-red, juicy tomatoes are deeply ribbed but fully flavored and absolutely delicious. This variety is hearty and does well in hot weather, but continues to produce even when the weather turns cool. Indeterminate. 78 days.

Cuor Di Bue

70 days. This Oxheart type Italian heirloom has been a favorite in Italy for many years. Beautiful 12 oz. fruit have a delicious sweet taste, similar to the shape of a heart, great for fresh eating or cooking. Large vigorous vines. Hard to find.

Genuwine

A cross of two heirloom parents, it blends the robust Italian flavor of Costoluto Genovese with the rich perfume of Brandywine. The perfect tomato for a Caprese salad!
Indeterminate.

German Johnson

A beautiful heirloom tomato with a creamy texture - German produced huge tomatoes in our trials last year. Especially good for unique tomato sauces.

Grandma Mary's

Plum type tomato great for making paste or sauce. An heirloom with great taste as well as a strong performer in the garden yielding great crops of tomatoes. Indeterminate.

Japanese Black Trifele

Unusual pear shape and burgundy color. Good yields of 4-6 oz. fruit with excellent, rich flavor. Harvest when shoulders are still green for best taste. Indeterminate.

Rose de Berne

Heirloom tomato - rivals Brandywine for taste. Deep pink and smoother than Brandywine. Rose is large, meaty and flavorful. Normal leaf plants.

Striped German

Flat, medium to large, ribbed-shoulder tomatoes are shaded yellow and red. The marbled red and yellow interior looks beautiful sliced. Complex, fruity flavor and smooth texture.

Yellow Brandywine

An orange old-timer with rich taste. Large, flat-round orange tomatoes with gourmet taste similar to Brandywine. Delicious. Fruit may be irregularly shaped.

Tomato - Husk Cherry *Physalis pruinosa*

Goldie (husk cherry)

Sweet, small orange berry with a husk.

A conversation piece at markets, well liked by children. This old-fashioned tomato family member bears 1/2- 3/4" sweet golden berries inside papery husks, resembling small, straw-colored Japanese lanterns. Another name is "Cape Gooseberry," and the flavor is similar: quite sweet and a bit wild. Plants are profusely branching, prolific, and drop ripe fruits. Fruits can be eaten raw, dried like raisins, frozen, canned, or made into preserves, cooked pies, and desserts.

Tomato - Paste *Lycopersicon esculentum*

Hog Heart Paste

An excellent paste tomato for sauce and canning, with good solids and excellent flavor. Named "Hog Heart" because it sometimes grows large, double heart shaped fruits. More often the fruits are single and shaped like a banana pepper.

Jersey Devil

90 days. Pendulant, pointed, pepper-like fruits are slow to set on but yield very heavily. 5-6 inch, ruby-red, paste-type fruits are very meaty and have few seeds. Incredible flavor.

Juliet

AAS Winner. Cluster/Plum tomato. Great for growing clusters of salad tomatoes. Delicious rich tomato taste, for great salsa and fresh pasta sauce. 12-18 fruits per cluster. Good crack resistance.

Mariana

Excellent internal and external color. Small to medium-sized plants have good fruit set and are high yielding. 4-6 oz. fruits are extremely uniform in shape, firm with thick walls, and have very good flavor. Good disease resistance. Determinate.

San Marzano

San Marzano tomatoes, a variety of plum tomatoes, are considered by many chefs to be the best sauce tomatoes in the world.

Tomato - Standard *Lycopersicon esculentum*

Better Boy

A standard large fruited hybrid - great for the home garden. Resistant to nematodes, verticillium and fusarium wilts. Fruit average of 1lb.

Big Beef

Beefsteak variety with great looks and taste. AAS winner in 1994. 10 oz fruit on an indeterminate plant produce early and go until frost. resistant to v, f1, f2, as, s, n and tmv.

Brandy Boy

New from Burpee seeds in 2003. Their catalog claims it as the "best all-around eating tomatoe we've bred in over 50 years". From 'Brandywine' stock, this plant is said to yield 4-5 times as many tomatoes as its parent and does it 10 days earlier (78 days). Handsome fruit with no cracks. Trial for SLF in 2003.

Celebrity

7-12 ounce fruits on a bushy plant. Produces an all purpose tasty fruit under a wide range of conditions. High disease resistance.

Chef's Choice Orange

Chef's Choice Orange is a stunning and delicious update of the old heirloom favorite Amana Orange. Amana was renowned for its bright tangerine tones and rich tomato tang, but it produced at the end of the season, taking a long time to finish. Chef's Choice updates that with a quick finish, but keeps all the rich flavor of the heirloom variety!

Chefs Choice Pink

2015 AAS Winner! Very large, 12 to 14 ounce (often over 1 pound), pink, meaty fruits have the perfect acid to sugar ratio. Easier to grow than most beefsteaks - definitely give this one a try. Great for stewing or canning, as well as eating fresh. Potato leaved plants are Scab and crack resistant. High yields. Indeterminate

Early Girl

Long the standard of comparison for early slicing tomatoes. Heavy yields of slightly flattened bright crimson globes averaging 4-6 oz. Sweet, meaty flavor with a hint of tartness.

Fourth of July

A variety from Burpee seeds - requested by our customers and rated as the earliest tomato, even in these chilly parts of NH. 4 oz. fruit starting in early July and then all season long. Start harvesting 49 days after setting out the plants.

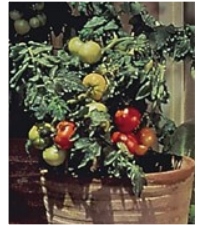

Jet Star

A Spring Ledge favorite. We have been growing this as our field tomato for years - a highly dependable variety. Large Clean fruit, globe-shaped with bright color and pleasant flavor.

Patio

Nicely compact patio tomato plant for use mainly in containers or where space is limited. Deep red tomatoes with good color. Determinant.

Rutgers

A long time favorite variety bearing medium sized, round fruit. Indeterminate. 78 days.

Valencia

Sunny orange fruits with full tomato flavor. Round, smooth fruits average 8-10 oz. Their meaty interiors have few seeds. This mid season tomato is among the best for flavor and texture.

Tomato - Tomatillo *Physalis ixocarpa*

Cisneros

One of the largest in the Tomatillo family and a VERY heavy producer. The Cisneros can be used when bright green in color for a more tart flavor or when left on the vine will develop a sweeter taste. It's unique flavor make some of the worlds tastiest salsas.

Watermelon *Citrullus lanatus*

Sugar Baby

76 days. Red flesh. Round fruits 6-8" in diameter. averaging 8-10 lbs. Rinds are strong, resist breakage. The standard "icebox" melons for many years.
